irregularities in the Issue of Drawback Certificates-Some Evidence Which Requires Explanation-The District Commissioners' Reply to Senator Blair's Resolution -Other Matters, &c.

The Gilfillan Investigation.

The House District Committe resumed yes of the financial affairs of the District under the charges preferred by Treasurer Gilfillan. The testimony taken reflected very severely upon the management of the "drawback" office. The first witness was Seth Schell, who testified that after attempting several times to obtain a drawback to which he was to obtain a drawback to which he was en-titled, he found out that the drawback has been issued to another person upon a forged application, and had fallen into the bands of

Henry F. Davis testified that a drawback to which he was entitled was issued to a broker named Eddy. When the witness complained to Commissioner Dent, that gentleman actively exerted himself to set the matter right. After some time he was given two drawback certificates in place of the one issued to Eddy. The witness said that he did not know how the broker got the certificate, unless he was in "cahoots" with some of the employea of the office. He said also that he had paid taxes on some county property in 1578 and in 1880; he found that he had not been credited with the payment, and in the meantime his property had been advertised for sa'e as "delinquent."

Z. W. Denbam, a clerk in the Treasurer's office, testified that the records of that office showed that no interest on delinquent taxes had been charged since October, 1878, and that prior to that date the six per cent allowed by law was charged.

G. H. B. White, cashier of the National Metropolitan Eank, testified that the bank had received a drawback of two-thirds on an assessment, though no complaint had been made and no revision requested. Henry F. Davis testified that a drawback
